

*Global, multilingual and digital -  
what marketing is today!*

March 2022

*Dear Customers,*

Nowadays, audio-visual content is an integral part of a digital marketing strategy.

Anyone with a global and multilingual presence in this area taps an enormous potential for retaining existing customers and acquiring new customers.

med-translations would like to help you in this, and therefore we have accordingly expanded our range of services for you.

We are pleased to now be able to offer you foreign-language subtitling and voiceovers for your promotional videos or commercials.

Together with our new partners, we are now able to provide you with transcriptions, subtitling and voiceovers for almost every language. In this way, you receive our translations directly as a finished subtitling or audio file in the file format you would like. Everything from a single source, at our usual level of high quality.

We are pleased to be able to actively support you in these projects in the future as well.

Please feel free to get in touch with us! We would be happy to provide you with a no-obligation proposal.

Please contact me if you have any questions.

Best wishes,

**Claudia Schnier**
